Staff Account: Incident at Fish Hatchery on 3/24 with Josh and occupants. This is from Ethan, who distributes food at the camp and was present when the altercation happened. Josh was sitting in the Fish Hatchery parking lot with James when one of the other occupants approached the car. The individual confronted Josh about recording his sister and posting the video online without her permission. An argument broke out between James and the occupant, and Josh joined in by yelling as well. Ethan then told Josh and James to leave and stop escalating the situation. The confrontation continued, and the occupant threatened Josh after he refused to remove the video. Josh called the police, but other occupants stepped in and pulled the individual away from the car. Josh and James then left the scene, and the police were no longer needed.
